

# Dr. Taejun Han

## Campus President of Ghent University Global Campus

**Taejun Han** is campus president at Ghent University Global Campus. He holds an MSc in Plant Biology from Seoul National University and a PhD in Marine Biology from University of Liverpool. Taejun's teaching and research expertise lies in the fields of Marine Biology, Aquatic Toxicology, and Algal Ecophysiology. He has contributed to numerous scientific and applied research projects worldwide including CO<sub>2</sub> reduction plan using seaweed. Current research themes include Korean Peninsula marine algae peace belt 'Red Gold' project, the establishment of tidal flat marine diatom innovation platform, and biomass-biorefinery-environmental monitoring and purification. Taejun was Chair of the Korean Society of Environmental Risk Assessment and Health Science and Head of Incheon National University Research & Development Science Centre.

### Education

B.A., Seoul National University, Earth Science (1984), South Korea

MSc., Seoul National University, Plant Biology (1986), South Korea

Ph.D., University of Liverpool, Marine Biology, (1992), UK

### Professional Activities & Service

Campus President, Ghent University Global Campus

Chair, the Korean Society of Environmental Risk Assessment and Health Science

Vice President, the Korean Society of Marine Life Science

Head of Incheon National University Research & Development Science Centre

Chief of Incheon National University Marine Science RIS Agency

Head of Green Environment Research Centre

Senior research Fellow, ISO TC147/SC5 Korean representative
